

Agile Activity Atlas

Try Rails from scratch on something usefull

Store and search Activities (game / excercise) so I don't forget them and can easily search them online during and before training.

For who:

Tlsk - search for games, activities and excercises for our own trainings

// how to make it profitable? Make it public and let people vote to get high trafic on page?

Optional:

Trainers - want to create my set of activities, and add new ones

Agilists - may vote for activities (guest registration)

Data:

User: id, name, email, password, optional: (gravatar)

Activity: id, name, abstract, detail, note, tags, category, optional: (time, attachments to print, type: group/individual)

Epics:

Activity - add / edit / delete

Search - fultext, filter by tags / categories / time / optional: (complex filter && / II)

Voting - 5 stars

Sort - name / time / category / asc/dsc

Pictures - from activity

Optional:

Comments

Admin module (users)

Collections (user can group activities in sets)

Tbd name/ url:

Name: Agile Activities book - can we have 3 "A" ? Album / atlas

part of tulming site: aaa.tulming.com, activity.tulming.com, agileactivities.tulming.com, agileactivityatlas.tulming.com

Separate Url: ?? activeagile.com, agileactivity.com, aactivities.com,
agileactivitiesatlas.com, agileactivityatlas.com
